NOMADER 580

TRIMS AVAILABLE: BASE, EPS

Take charge of your farm and your fun with the Nomader 580. This robust, responsive, and resilient utility vehicle is your great partner for any task. From sunup to sundown, it's designed to excel at everything your farm throws its way.

Main Features

Uncompromised Durability

Built with a high-yield strength alloy steel frame, our UTV doesn't just meet expectations for toughness and safety—it shatters them. This isn't just about a stronger frame; it's about providing you with peace of mind knowing you're in a vehicle designed to handle the harshest conditions while keeping you protected. Drive with confidence, knowing your UTV is engineered for the long haul and built to keep you safe.

Peak Performance, Minimal Maintenance

Our dominant engine packs a class-leading 46 horsepower, out performing smaller engines with superior fuel efficiency and a smoother ride, thanks to BOSCH EFI. But it's not just powerful; it's also engineered for longevity. With extended service intervals and a clever split powertrain design featuring advanced filtration, you'll spend far less time on maintenance and more time putting that power to work.

Superior Suspension. Unmatched Ride

Our suspension travel leads the pack by 20%, giving you significantly better handling and a noticeably smoother, more comfortable ride. You'll feel the difference over any terrain.

Ultimate Versatility

At just 58 inches wide, the Nomader 580 delivers exceptional maneuverability. Its responsive handling makes navigating tight spots and conquering any farm chore effortless. This UTV simply accesses areas others can't, tackling workloads large or small.

Customized Comfort & Control

Find your perfect fit and feel completely in command. Our adjustable steering wheel tilts a full 32 degrees, effortlessly accommodating any driver. Paired with a non-slip bench seat offering 4.25 inches of travel, you'll enjoy a personalized and comfortable experience every time you get behind the wheel.
